

Square Oil A/S
Hattemagervej 5
9000 Aalborg
Tlf: 96 30 50 00

Blend of two different viscosities:

- At 0 Vol.-% mark the lower viscosity.
- At 100 Vol.-% mark the higher viscosity.
- Draw a line between the marks, the blending scale will show the Vol.-% of the higher viscosity.
- Use only viscosities at same temperatures i.e. 40°C.

Blending scale
Vol.-% of oil with high viscosity

0 20 40 60 80 100
